Three phase On-grid PV Inverter

The Afore BNT Series Three-phase string inverters are designed for commercial and power plant PV system applications, ranging from 36kW to 60kW. All models with aluminum housing which is anodized, increasing durability and effectively prevents corrosion. Equipped with external inductors, ensure efficient heat dissipation, which significantly improves the reliability and extends the life of the inverters.

The inverter menu is activated by sensor touch buttons. Communication implements are via the Wi-Fi module (which can be changed to Ethernet / GPRS).

Check the system status anytime and anywhere via online portal or APP.
